

PONY

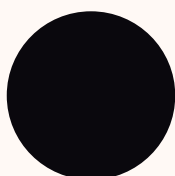

– Ergonomic Saddle Seat Chair

Pony is an ergonomic chair with a saddle seat and adjustable seat angle, featuring a high gas lift and footring for optimal support. The chair is ideal for shop staff, dentists, hairdressers, and anyone experiencing back problems or looking to strengthen their back muscles.

Pony is suitable for both standard desk heights and sit-stand tables. The seat comes in durable black faux leather as standard, and the chair is supplied with castors, but can also be ordered with sliders.
